Tangier

Dear Richard

I wondered what had happened to you, why you never appeared again. Now

I understand, and I hope you got over whatever you came down with at the AKABUN House. What I want to write to you about now is the 'Majoun' CD

I think it is absolutely brilliant

I have my favorite sections among which is Number 4, which you recommended.

I am also very taken with Number 2.

Anyone who knows something about music is bound to be enthusiastic. Last night

I finished making a cassette copy of the CD for Karim Debbagh, who is in

love with the music. Every time I play the CD of 'Majoun' I hear additional

sounds which I hadn't heard before. It all seems worked out with clockwork precision

I can only congratulate you for having constructed it and thank you for having given it to me. I'm sorry we didn't

see each other but that will be for another time. I send my love

Paul
